**REQUEST FOR CORRECTION OF TITLE**

Applicants amended the title of this application to more accurately reflect the claimed subject matter of the invention in their response dated April 12, 2007. The title should now read as follows:

USE OF THE NEUROTOXIC COMPONENT OF A BOTULINUM TOXIN  
FOR TREATING A SPASTIC MUSCLE

The USPTO online system indicates the title with a typographical error. Applicants respectfully request that the title be corrected in the system to properly reflect the title as amended.

Respectfully submitted,  
/STEPHEN DONOVAN/
